25X1 3. [REDACTED] Francis Hewitt, Senate Appropriations Committee, telephoned asking if we would possibly be interested in a Chinese who was in this country on permanent residence. Hewitt pointed out this individual's wife is a doctor in the American army. I asked him to send us a Form 57 and we would look into it.

25X1 4. [REDACTED] Talked with Representative Thomas C. Morris to inquire if he had had any success in running down the matter of announcements of ballistic missiles being fired from submerged submarines by the Soviets. Morris advised he had checked with Appropriations and apparently no such statement was made there. However, he stated he had a clipping from the WASHINGTON POST for which he was searching. He thought it was March of 1962. I indicated we would also check on it and be in further contact.
